

PORTABLE MESH NEBULIZER

MODEL NO: HNK-MESH-01

MADE IN
TURKEY

H|nimo®

NIMO® Portable Mesh Nebulizer is designed for the treatment of asthma, allergies and other respiratory ailments. Thanks to the active mesh technology that converts electrical energy into mechanical energy, HNK-MESH-01 transforms liquid drugs into aerosol mist and allows them to be taken into the body by respiration. NIMO® Portable Mesh Nebulizer, which has titanium alloy active mesh technology, can give the drug to the patient quietly and quickly without disturbing the patient. The device is suitable for use by patients of all ages. HNK-MESH-01 is easy to use. HNK-Mesh-01 is lightweight and ergonomically designed for easy use at home, at work or on travel.
